Full-Stack Developer

EXPERIENCE

Deltastack — *Full-Stack Developer*

2023 - MAY 2025
deltastack.io

- Built frontend pages, backend APIs, and product features.
- Worked on application logic, bug fixes, and internal tools.
- Worked with other developers to build and improve products.

Project: cookieos.app

Propertykraft Afrika — *Developer*

JUNE 2025 - AUGUST 2025

www.propertykraft.africa

- Helped build WhatsApp bot integration for a property management app.
- Connected bot flows to backend APIs and property management logic.
- Tested and improved the integration.

Gatherpay — *Backend Developer*

CONTRACT, 2025 - JANUARY 2026

- Built backend infrastructure with NestJS, TypeScript, PostgreSQL, and Prisma.
- Created APIs, database models, and backend business logic.
- Supported the mobile app backend. Product is launched on Google Play Store.
